

Meet Lineups “What does it all mean?”

Every week your swimmers events will be posted in the boy’s locker room hallway. For new swimmers and younger swimmers it may be difficult to understand what the information on the lineups mean. This is to help break down exactly what each piece of information means on a lineup sheet. Parents please remember to look at these as often as possible as the lineups may, and most likely will change throughout the week.

If swimmers or parents have any questions, please be sure to ask. You can ask coaches, veteran swimmers, other parents, the DAAC board members... We understand this can be confusing, and we are all here to help understand “what it all means”.
