1. Many swimmers will be trying to qualify for the District #3 Meet today.
2. In order to qualify for the state meet, a swimmer must either place at least second at Districts or equal or better the state qualifying time listed above, while finishing sixth or better at Districts.
3. The state qualifying times represent the average of the 18th place time in each event over the last (5) years.
4. The Scoreboard will show the final time and place for each lane at the end of the race. Unless there is a malfunction, this reading will be the official time.
5. In races of more than two (2) lengths, the cumulative time will be displayed for 15 seconds after the swimmer touches the pad on the turn. The display will then revert to "running" time. This will continue until the final time is displayed. Figuring the "splits" with these times reveals how the race is swum and can often be used to predict the final time and/or a possible record.
