1. Many swimmers will be trying to qualify for the District III meet today.
2. Each PIAA district may qualify both a boys' and girls' district champion in each swimming event to the PIAA Swimming and Diving Championships. In addition, second, third, fourth, fifth, sixth, and seventh place finishers in the district meet may qualify to the championships provided their district qualifying time is equal or better than the state qualifying time.
3. The state qualifying times represent the average of the 18th place time in each over the last (5) years.
4. The Scoreboard will show the final time and place for each lane at the end of the race. Unless there is a malfunction, this reading will be the official time.
5. In races of more than two (2) lengths, the cumulative time will be displayed for 15 seconds after the swimmer touches the pad on the turn. The display will then revert to "running" time. This will continue until the final time is displayed. Figuring the "splits" with these times reveals how the race is swum and can often be used to predict the final time and/or a possible record.
